

PACKAGING CONSULTANTS INTERNATIONAL

Testing Certificate
#3497.01

Laboratory Certificate #36-B-00155

May 27, 2020

Dear Valued Customers,

Packaging Consultants International (PCI) is currently monitoring the COVID-19 outbreak and recommended safety precautions. As recommended by federal and local government bodies, PCI will be implementing social distancing protocols until further notice. **We will continue to maintain daily expedited testing measures and routine testing, when possible, utilizing a limited staff.** In the event priority testing is required, please communicate this to PCI at customerservice@pcilabs.com prior to submitting your samples.

At this time, in concert with the FDA, **inspections of foreign manufacturing facilities are being reviewed on a case-by-case basis and may be delayed**, depending on travel restrictions and locations. As this is a very fluid time, we will monitor the situation closely and resume regularly scheduled foreign inspections as soon as feasible.

In the event we are not able to physically inspect foreign produced FDA-regulated products or manufacturers, all facilities (domestic and international) **should continue to submit** samples for microbiological testing at the recommended frequencies in order to maintain compliance with *Section C. Bacterial Standards and Examination of Single-Service Containers and/or Closures, from Appendix J of the Grade "A" Pasteurized Milk Ordinance.*

We will continue to assess this dynamic situation and adjust our approach accordingly as information is obtained.

Please reach out to us with any questions you may have.

Sincerely,

Patrick A. Frontale
President
